CP-ASM4-TT

3U CompactPCI® Table Top Rack for Development

The CompactPCI card cage CP-ASM4-TT is well suited for any development on CompactPCI applications.

For comfortable use on the labor desk, the housing is equipped with feet, handholds, a 8HP power input module on the rear side with filter, IEC input plug, double fuse and on/off switch, and finally with two 12VDC radial ventilators.

A 180W power supply enables 120 or 230 AC input voltage. The integrated backplane provides a compactPCI system slot on the right and 4 peripheral slots, including rear I/O option.

The entire card cage is EMI shielded and readyintegrated.

CP-ASM4-TT is ready for use with any 3U system controller board out of Kontron's rich portfolio, including the 8HP variants which provide more I/O interfaces and a 2.5" HDD/SSD mounting option.

On the right of the controller board, there is space for integration of a SATA Kit CP-HDD-S-KIT-S on request, providing a carrier with backplane addition for a separated 2.5" SATA II HDD or SSD.

Technical Information

Dimension	190 x 245 x 297 mm (4U / 44HP)
Ambient temperature	0°C to +50°C
Humidity	No-condensing, 20 - 90% at 40°C
Weight	approx. 4900 g
Backplane	5 slots, system slot right, 32bit, Rear-I/O, M-connector for PSU
Power Supply	
General	12 HP, 3U, status LED at front
Input	120 / 230 VAC
Output	180 W; 3.3 V/14 A, 5 V/20 A, +12V/2A, -12 V/ 1 A

Ordering Information

Article	Part No.	Description
CP-ASM4-TT	1044-0211	44HP/4U table top card cage, 180W AC/DC and fans, 5 CompactPCI® slots with rear-I/O, Completely wired and tested
