## KISS -Stor Slim

### Kontron Industrial Silent Server

The main attraction of KISS Stor Slim Series is their extremely user friendly handling. Just Plug to SATA Port and Power and the RAID Solution will work properly. No Drivers needed and the RAID Controller is already integrated in the box.

With Kontron's new KISS-Stor Slim SATA RAID 1 subsystems, Kontron now offers a economical and efficient solutions to accommodate the growing

need for secure, fast, robust, systems and whisper-quiet drive capacity. KISS-Stor Slim subsystem is easy and uncomplicated to install and manage – the only requirement is a free SATA I or SATA II port.

Compared with similar solutions with special RAID cards for storage management, the KISS-Stor Slim saves space and cabling, while maximizing the system's capacity for additional features.
